AERO Specialties provides complete aircraft ground support equipment (GSE) solutions to corporate, FBO, MRO, military, airline and general aviation customers worldwide. Our industry expertise and diverse product lines set us apart from the competition, making AERO the preferred GSE supplier for over 21,000 organizations globally.

JetGo Diesel-Hybrid GPUs

JetGo precision diesel-hybrid GPUs offer impressive continuous and peak power in addition to sophisticated aircraft protection systems. Their lightweight and compact size allow for easy mobility, via tug or by hand.

Applications include quick and cool engine starts, avionics support, electrical air conditioning and aircraft maintenance functions. With fuel and maintenance savings over 40% when compared to the competitor's units, these user-friendly GPUs are the affordable answer to your DC power requirements.

Oxygen and Nitrogen Systems

Our oxygen and nitrogen systems provide the best value, quality and durability in the industry. We offer complete systems or individual components.

Lavatory and Water Carts

Business and regional aircraft, narrow-body and wide-body; we cover it all. We manufacture the finest lav and water carts on the planet. Our units are cost-effective, simple to use, and easy to maintain.

Towbars and Heads

AERO Specialties towbars and heads offer the highest quality and durability in the industry. Systems are available for business, regional, military and commercial airframes.

Hydraulic Power Units

Higher-quality, quieter and more efficient than the competition's units, these HPUs have set a new standard for hydraulic servicing.

Portable Power Units

AERO Specialties line of portable aircraft starting units and continuous power units offer an affordable, durable and dependable solution for 12 to 28.5V DC aircraft and helicopter power requirements.

Used and Refurbished GSE

One of our specialties is professional refurbishment and overhaul of pre-owned GSE. Our mechanics hold numerous repair certifications, ranging from GPUs to turbine engines. This maintenance expertise provides our customers with extremely reliable equipment at affordable prices.

Maintenance Stairs/Stands

Our stands tower over the competition! AERO Specialties offers a wide array of stairs and stands for any application, from passenger boarding and crew access to customized maintenance applications.

Solid State GPUs

AERO offers Unitron solid state power products because they are simply the best in safety, precision and reliability. With a three-year warranty, Unitron GPUs are the choice of more MROs, FBOs and corporate flight departments.

TLD Ground Support Equipment

With over sixty years of industry expertise, TLD is the global leader in the design, development, manufacturing and aftersales support of ground support equipment. TLD equipment is found on all major airline tarmacs and within high priority military operations. AERO is proud to be the primary general aviation and military distributor for TLD equipment.

PUSHBACK TRACTORS: Traditional and towbarless units designed to tow business jets, helicopters, military airframes, regional and commercial aircraft.

GROUND POWER UNITS: The most compact, quiet and powerful 400Hz diesel GPUs available, TLD units have set the industry standard.

AC & HEATING UNITS: TLD's superior air conditioning and heating units provide a consistent and stable operating environment in any climate condition.

BELT LOADERS: Compatible with all aircraft types, TLD units are low profile, simple in design, and easy to maintain.

AIR START UNITS: Loaded with standard features and components that combine to produce the most versatile and cost-efficient units available.

TUGS: Featuring a heavy-duty and virtually indestructible chassis, with an ergonomic design to provide maximum driving comfort and exceptional visibility.

Secure Online Store

Our online store provides a user-friendly interface for ordering a wide range of parts and supplies, from towbar heads to ramp safety equipment.
