

## The world's largest GSE parts provider

- The most extensive inventory of parts, delivered fast
- GSE experts with solutions to complex needs
- Serving more than 1,000 airports on 6 continents

2025 CORPORATE BROCHURE

## YOU'RE ALWAYS CLEARED FOR SAVINGS

Our customers range from airlines to freight carriers to ground handling companies. Their needs and budgets vary, but they all save time and money with Sage.

### The SAGE ADVANTAGE includes:

#### Largest Catalog

For the GSE parts you need

#### Worldwide Sourcing

For the low prices you seek

#### Sageparts.com

For easy ordering and delivery

## MINIMIZING DOWNTIME, MAXIMIZING EFFICIENCY

Weather, dust, and continual use can be detrimental to your GSE equipment, costing you time and money. Superior parts matter.

Sage Parts engineers continually review performance data and customer feedback. The engineers use that information to help ensure that RAMPTECH parts, offered exclusively by Sage, truly are better than the originals.

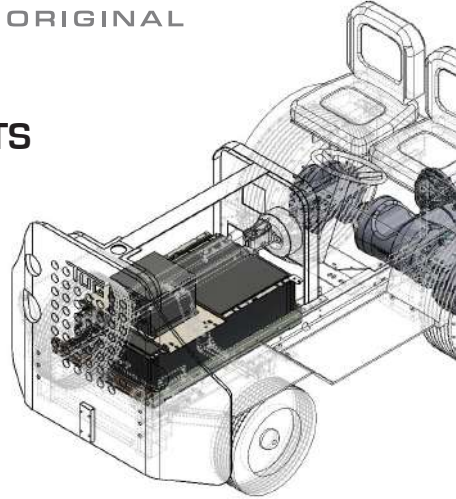

### RAMPTECH®

BETTER THAN THE ORIGINAL

#### REDUCE EMISSIONS AND CUT FUEL COSTS

Our electric power conversion kit — powered by RAMPTECH technology — helps you meet sustainability mandates.

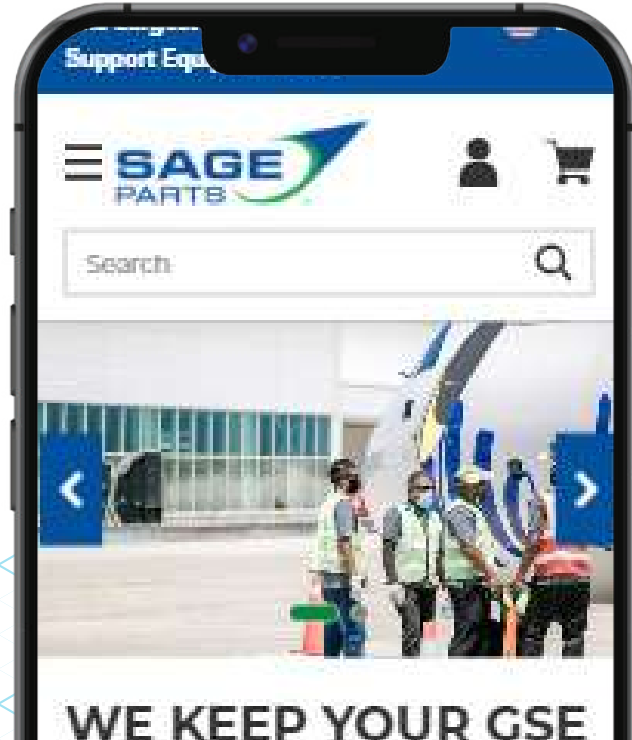

Only from Sage Parts.

## eSAGE – THE LEADER IN GSE eCOMMERCE

This one-stop online shopping solution features:

- User-friendly interface optimized for mobile use
- Real-time inventory access, with enhanced parts identification
- Advanced punchout and system integration

## WE GET YOUR PARTS TO YOU FASTER

Sage Parts has distribution centers in multiple cities on five continents, and our strategically located warehousing facilities are at airports worldwide. The parts you need are never far away, which saves you time and money in shipping costs.

### Ready to ship, round-the-clock

Many of our facilities are open 24/7, 365 days a year.

We deliver to more than 1,000 airports worldwide.

We have almost every replacement part ready to ship.

## SUPPLY CHAIN OPTIMIZATION

Save time and money by having Sage Parts manage any or all of your supply chain processes, including:

#### On-site parts supply

We'll operate the GSE parts stockroom. You'll save on handling, freight, and parts/brand standardization.

#### Inventory ownership/management

Reduce expenses related to capital costs, finance charges, storage costs, and obsolete/excess parts.

#### Parts procurement

Meet your specific GSE parts needs while getting the best possible prices and the fastest order turnarounds.

## CUSTOMER SUPPORT AND SERVICES

With Sage Parts, you get the right part, the first time.

We'll listen closely to your needs and your questions. We'll ask for more information if it's needed. Then, you'll get answers and recommendations. We'll tell you everything there is to know about the part you're ordering — including exactly how it works, what it does, and even how to install it.

#### Our comprehensive support includes:

- 24/7 technical assistance
- Expert consultation
- Training and education
- Custom solutions

#### Our value-added services include:

- Cost-reduction programs
- Inventory optimization
- System integration
- Technical analysis
